

SOMERA

AI Coaching Assistant for JoveHeal

What is SOMERA?

SOMERA is an AI-powered coaching companion designed exclusively for JoveHeal. Unlike typical chatbots that simply answer questions, SOMERA provides a genuine first-touch coaching experience - the kind of empathetic, guided conversation your visitors would expect from a real wellness coach.

How SOMERA Works

Traditional Chatbot (Jovee)	SOMERA Coaching Assistant
Answers FAQs about programs	Holds a coaching conversation
Provides information	Asks thoughtful, probing questions
Reactive responses	Guides users to their own insights
Generic tone	Warm, empathetic, non-judgmental

What Makes SOMERA Special?

1. Built on Shweta's Coaching Framework

SOMERA is trained on Shweta's unique 4-Step Framework and coaching methodology - not generic AI responses. It mirrors her coaching style, language, and approach.

2. Emotional Pattern Recognition

When a visitor shares what is bothering them, SOMERA recognizes the emotional patterns and helps them uncover the root cause - just like a skilled coach would.

3. The Three Pillars

SOMERA understands the interconnection between Career, Relationships, and Wellness - gently guiding conversations across these life areas.

4. Active Listening, Not Advice-Giving

SOMERA does not tell people what to do. Instead, it asks the right questions, reflects back what it hears, and helps users arrive at their own clarity.

5. Smart Referrals

When someone needs deeper support (energy healing, chakra work, regression therapy, etc.), SOMERA gracefully guides them toward booking a Discovery Call with Shweta.

The Business Value

- **24/7 Coaching Presence**

Visitors get a meaningful interaction any time, not just during business hours

- **Warm Lead Qualification**

By the time someone books a Discovery Call, they have already had a taste of the coaching experience

- **Showcase Your Methodology**

SOMERA demonstrates Shwetas expertise before the first live session

- **Higher Conversion**

A coaching conversation builds trust faster than an FAQ bot
